Amphenol® RF

Q-Flex's partner Amphenol RF, a division of Amphenol Corporation and one of its original core business groups, is the world's largest manufacturer of coaxial interconnect products for radio frequency, microwave and data transmission applications.

As a leader in enabling next generation technology, Amphenol RF is able to continually support global advancements in connectivity. Amphenol RF headquarters is located in Danbury, CT, USA with sales, marketing and manufacturing locations in North America, Asia and Europe. **WWW.AMPHENOLRF.COM**

AMPHENOL RF OFFERS A ROBUST AND EVER EXPANDING PORTFOLIO OF STANDARD AND CUSTOM RADIO FREQUENCY PRODUCTS WHICH MEET CUSTOMER-SPECIFIC DESIGN REQUIREMENTS.

- RF Connectors like SMA, Fakra, N-type, G-type, BNC, TNC, SMB, MCX, MMCX, FME, UHF, 4.3-10 etc.
- RF Adapters like SMA, Fakra, N-type, G-type, BNC, TNC, SMB, MCX, MMCX, FME, UHF, 4.3-10 etc.
- RF Cable assemblies like SMA, Fakra, N-type, G-type, BNC, TNC, SMB, MCX, MMCX, FME, UHF etc.

- RF Terminators like SMA, BNC, TNC, SMB, N-type, Mini-UHF, HD-BNC, 7-16, SMP etc.
- RF Connectors with IP67/IP68 waterproof rating
- RF Attenuators SMA and N-type
- RF Accessories like protection caps
- Tools like crimp, extraction and insertions tools

Amphenol
MILITARY & AEROSPACE

Q-Flex expands its portfolio of Connectors and Cable Systems by offering Amphenol Military & Aerospace Operations' Interconnect product line

Interconnect portfolio diversifies Q-Flex's range with high-quality products with latest technologies in the military and aerospace markets. This enhances the ability to meet the needs of their valued customers by providing more comprehensive solutions.

Interconnect portfolio includes:

- Circular Connectors
- Rectangular & Board-Level Connectors
- RF Interconnects
- High Speed & Fiber Optics
- Junction Modules / Relay Sockets / Terminal Blocks
- Cabling and Cable Harnesses
- Contacts & Termini
- Backshells & System Attachments
- Printed Circuit Board / Flex / Rigid Flex
- Media Converters & Ethernet Switches
- Complex Systems and Assemblies
